

Dear brothers and sisters,

As you know, at the beginning of this year some big changes happened in my life and ministry, after 15 years of serving as a pastor, I passed that role to pastor Dragan; in order to completely commit myself to three things: training of preachers, evangelism and training of evangelists. Things in our local church are good, church went through transition very well – thanks God, and I am still occasionally preaching in the church.

Those are some of the things that kept me busy since beginning of the year:

January – most of January I was introducing pastor Dragan to church and his new role and I officially stopped my ministry in local church at Jan 31<sup>st</sup>. Beside that I had meetings of Langham Preaching European team, I visited St Botolphs church and I spoke at Langham Vision day in the UK.

February – at the beginning of Feb I spoke at evangelistic event at University of Southampton. Mid Feb I facilitate two Langham Preaching events, lev 2 in Croatia and lev 1 in Slovenia. At the end of the month I spoke at several evangelistic events in Wales and England, in local churches and at University.

March – most of March Sanja and I spent visiting churches in US, Albany and Atlanta. I was preaching and Sanja was speaking at women's event. After return home I preached at the conference for former drug addicts in Sarajevo.

April – after lot of traveling in first three months, I used April for some planning and administrative work. In Oct this year, evangelist Nick Vujicic is coming to Bosnia to speak in three cities. I am coordinator for this event in Sarajevo. We rented space for 2000 people and we hope to fill it.

May – Beginning of May I participated at one conference in Sarajevo, then I spoke at evangelistic event organized by IFES (EUS) Sarajevo, and right after that at Langham seminar also in Sarajevo. At the end of the month I preached at conference in Montenegro. Also, in May I celebrated my jubilee birthday, 50th, time is flying.

*Langham seminar Bosnia & Herzegovina*

June – I spoke at the FEUER Balkan conference, My Brothers Keeper conference in Macedonia and at promotion of the book „Cross on a hill“ in Bible Institute in Mostar. Theme of My Brother's Keeper was evangelism, and instead of afternoon workshops we were going to do street evangelism in towns Ohrid and Struga.

Family – Jovana passed all exams from the 5th year of Psychology, she just have to defend her master thesis in September. Few days after passing last exam she was offered job as psychologist in one company in Sarajevo where she did internship last year. David is at the end of first year of electrotechnics faculty in Zagreb, he has one more exam to pass in Sept. Sanja is doing good and serving in work with students. I didn't have medical check up for more than a year, I am getting ready for one soon. My sister Sanja (same name as my wife, on picture below left behind my wife) is going through chemo due to lung cancer, tumor is getting smaller – pray for her.
