Younger than???

28 June 2020

Who are we? We are younger St Edmund.

And where are we at the moment.

Daniel and Rebecca

Obie and Milo

Aimee

Jago

Who is back to school? Who is missing?

Where are India and Megan?

India.
What is she doing?

Noah's Ark

A space ship designed by Elon Musk, the man who makes the Tesla car, recently flew to the International Space Station. In the grand scheme of things it is not very far away considering that the moon is 250,000 miles away, Mars is 140,000,000 miles away and the nearest galaxy 2,500,000 light years away.

God made all that stuff and when the Bible talks about Him doing it, all it says is a few words in Genesis chapter 1 verse 16 - 'He also made the

stars.' That's it - and we have such a powerful and awesome God that He can casually create the whole universe without it being a big deal. Part of the reason that the Bible doesn't make a big deal out of it is because God is concerned with the best bit about His universe - us! In Genesis chapter 1, every time God adds a bit more to His universe we read, 'And God saw that it was good'. We read in verse 31, when He creates people, 'God saw all that He had made and it was very good.' We are, what makes God's creation, very good. Think how huge the universe is and then take a moment to think that God made all of those things just so He could have a relationship with you. That's how much He loves us.

What prayers could you pray this week?
